

Amara Raja Infra Commissions NTPC's Anta Solar PV Project

Set to generate 213 million units of green energy annually

Hyderabad, Aug 2, 2024: Amara Raja Infra Private Limited (ARIPL), part of the \$2 billion Amara Raja Group, has achieved another milestone in the renewable energy sector by successfully commissioning NTPC's Anta (Ground Mounted) Solar PV Project of 90 MW/135MWp.

This project, spanning across 437-acres site in Anta, Baran District of Rajasthan, is the country's first Balance of System (BoS) Solar contract awarded in 2021 from a CPSU. It is set to generate 213 million units of green energy per year and is commissioned in the existing premises of gas-fired thermal power station of NTPC in Anta.

The landmark project is part of ARIPL's current 2000MW Solar PV Portfolio and constructed transmission infrastructure for evacuation of over 7500MW of renewable energy through EHV Sub-Station and Transmission lines in India.

NTPC Ltd. is India's largest integrated power utility, contributing 1/4th of the power requirement of the country. It has a diverse portfolio of thermal, hydro, solar, and wind power plants spread across the country.

Dwarakanadha Reddy B, Business Head (Power EPC), ARIPL, mentioned, "The successful commissioning of this project for NTPC is a testament to Amara Raja Infra's technical expertise and project execution prowess. The project would not have been possible without the unwavering commitment and support from NTPC. This will propel the renewable energy transition forward and reinforce our position as a prominent player in the clean energy space in India."

About ARIPL:

Amara Raja Infra Pvt Ltd (ARIPL) is an EPC company specialising in Power & Civil projects with capabilities to offer Design, Engineering, Procurement and Construction services. A part of the \$2 billion Amara Raja group, ARIPL has successfully executed prestigious projects in Power, Commercial, Industrial and Residential segments. With in-house design, project management, and construction capabilities, ARIPL delivers cost-effective solutions with the high

level of quality and reliability. The company has a solar portfolio of 2GW and has evacuated over 7GW of renewable energy through EHV substations and lines constructed in the last 5 years. ARIPL's clients include NTPC, PGCIL, Serentica, Vibrant, ISRO, Dr.Reddy's, BITS Pilani, IIT, and almost all leading State power utilities in India.
